

Specialised media for hydroponics seed germination

A low density, high-drainage foam, OASIS® Horticulture® growing medium is specifically engineered for hydroponics seed germination of vegetables and herbs. Growers will appreciate the simplicity this medium brings to the challenges of hydroponics production.

The excellent performance of Horticulture medium is based upon its unique cell structure which closely resembles the cellular structure of plants. This growing media is designed to drain off excess water from the base of the seed, allowing an optimal balance of oxygen and water, even when the foam is completely saturated.

Horticulture growing medium is sterile upon receipt and provides a clean start, pathogen free, environment which reduces disease and insect problems for plant germination. All Horticulture media is manufactured in a 'sheet' style that fits easily on a bench or into industry standard '1020' trays. Each sheet is pre-scored for easy removal of a single cube, block of cubes, or strip of cubes.

Features and Benefits

From sowing to transplanting, Horticulture growing medium makes hydroponics an easy process. Growers benefit from:

- Simple to use – just add water and sow seeds
- High-drainage product characteristics ideal for crops requiring high water usage
- Specially-engineered balance of water and air promotes vigorous root development
- Consistent product quality cell to cell
- Product cells do not compact after continual watering, maintaining the original air porosity
- Pre-dibbled holes make it easy to set the seed into place in the media
- Sterile sheets reduce disease problems

OASIS® Horticulture® Growing Medium: High quality without the maintenance
Producing hydroponics cops has never been easier

OASIS® Horticulture® Growing Medium
(All sheets 244.5mm W x 508mm L x 38mm D;
all media with 9.5mm diameter Universal dibble hole)

Item Code	Product Description	Product Cell Size* (Width x Length x Depth - mm)	Unit of Sale per Case
5225	25.4mm Medium 162 cells/sheet	Cube: 22.2 x 22.2 x 38 Centre holes: 28.575 apart	20 Sheets
5231	25.4mm Thin Cut Medium 276 cells/sheet	Cube: 19 x 22.2 x 38 Centre holes: 22.2 apart	20 Sheets
5240	31.75mm Medium 104 cells/sheet	Cube: 25.4 x 31.75 x 38 Centre holes: 31.75 apart	20 Sheets
5245	38mm Medium 50 cells/sheet	Cube: 44.5 x 44.5 x 38 Centre holes; 31.75 apart	20 Sheets

* Cube sizes may vary slightly due to the fragile nature of the media.
